NOTE: Estimates assume legislation enactment date of October 1, 1989.

Rules expire four months after start of a firm's first tax year beginning after August 1, 1987. The revenue estimate assumes that a technical correction will be enacted so that, under present law, exemption from the

Assumes Administration's proposal to recapitalize the FSLIC and FDIC is enacted as proposed. Revenue effects only--estimate does not reflect possible outlay savings. 2% floor sunsets after 1989.
